
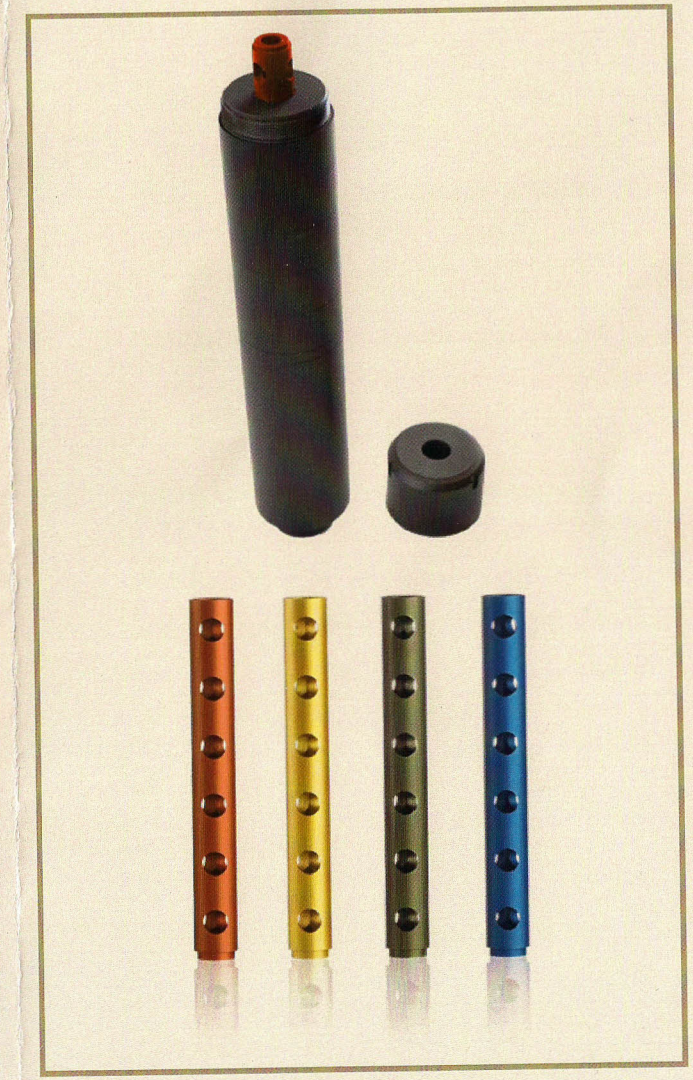
*Safety check - before each use*

To ensure the right insert is chosen for the suppressor, it is important that you check that you are able to insert your ammunition into the end of the suppressor before use.

You should be able to insert the ammunition to the neck of the cartridge, as illustrated on the image above.

*Nielsen gun parts will not be responsible for any injury following usage of a mismatching insert.

# CHOOSING THE INSERT

Before you use your suppressor, it is important to choose the right insert. On the chart below you are able to see what insert to use on the different calibers. To change the insert unscrew the lid of the suppressor and insert it.


| | Max kaliber 6mm | Max kaliber 7mm | Max kaliber 8mm | Max kaliber 9,5mm |
|---|---|---|---|---|
| 222. Remington | x | | | |
| 223. Remington | x | | | |
| 22-250 | x | | | |
| .243 Winchester | x | | | |
| 6x62 | x | | | |
| 6,5x55 | | x | | |
| .270 Winchester | | x | | |
| 7mm Remington Magnum | | x | | |
| 7x64 | | x | | |
| 7x57 | | x | | |
| 7.62x39 | | | x | |
| 7.62x54R | | | x | |
| .308 Winchester | | | x | |
| .300 Winchester magnum | | | x | |
| .30-30 | | | x | |
| .30-06 Springfield | | | x | |
| 8x57 | | | x | |
| .338 Lapua Magnum | | | | x |
